

THIERRY DUGAY

Nassau, Bahamas | 242-810-5619 | thierrydugay06@gmail.com

PROFILE

Adaptable and technically-proficient candidate with a strong background in automation, AI systems, and technical problem-solving. Proven track record of building 5+ automation tools that reduced manual workflow time by 70% through Python, n8n, and API integrations. Quick learner with a 3.72 GPA, combining analytical insights with technical expertise to optimize complex systems and workflows.

EDUCATION

University of the Bahamas | Nassau, Bahamas

Bachelor's in Psychology | Minor in Accounting | Expected 202X

GPA: 3.72 | Dean's List (Multiple Semesters)

Relevant Coursework: Statistical Analysis, Research Methods, Financial Accounting, Managerial Accounting

Boost Academy High School | Nassau, Bahamas

High School Diploma | GPA: 3.87

TECHNICAL SKILLS

Automation & AI: n8n, API Integration, workflow automation, automated reporting systems, prompt engineering

Programming: Python (data analysis, scripting), C++, CLI development, logic and algorithms

Infrastructure & Systems: NAS setup, centralized data processing, networking basics, hardware assembly, troubleshooting

Data & Analysis: Microsoft Excel (advanced), statistical software, data visualization

PROJECTS

Automation Systems: Designed and deployed 5+ workflow automation systems reducing manual processes by ~70%. Developed automated reporting and notification systems for real-time data access.

Data Processing & Storage Infrastructure: Architected and deployed centralized data processing and storage system to ensure data privacy and reduce reliance on external cloud services. Optimized network configurations for high-speed data transfer and secure remote access.

Programming & Logic Development: Built a suite of CLI tools, including a financial calculator and secure password generator, demonstrating strong fundamentals in logic and algorithmic problem-solving.

Marketing & Design Project: Designed high-impact promotional materials for a rental property, directly supporting client acquisition and brand visibility.

EXPERIENCE

Apprentice Plumber | UGC Construction Company, Nassau, Bahamas | May 2024 – Dec 2024

- Applied strong attention to detail and problem-solving in high-pressure environments
- Collaborated within multidisciplinary teams to execute large-scale projects with strict safety and quality standards
- Streamlined on-site material tracking processes, improving efficiency and reducing waste

LEADERSHIP & ACTIVITIES

Baseball Team Captain (12U–18U): Led team as captain for 6+ years across competitive levels. Represented Team Bahamas in international competition (3x). Earned MVP and Best Hitter awards for consistent high performance.

Treasurer, Life 101 Club: Managed club finances, including budgeting and expense tracking, ensuring fiscal responsibility for student initiatives.

Chess Club Member: Developed advanced strategic thinking and pattern recognition skills through competitive play.

CERTIFICATIONS & INTERESTS

Currently pursuing certifications in technical skills and programming. Strong interest in automation, AI systems, and workflow optimization technologies.
